SetGold and SetGoldPro

Release Notes v5.3r0

Global Graphics Software (GGS) is pleased to announce the release of SetGold and SetGoldPro v5.3r0. This release note describes the changes made for v5.0r0, v5.1r0, v5.2r0 and v5.3r0.

I Enhancements

SetGold and SetGoldPro v5.3r0 provides the following enhancement:

- [“Golden state target”, on page 3.](#)

SetGold and SetGoldPro v5.2r0 provides the following enhancement:

- [“Inkjet/Toner option”, on page 4.](#)

SetGold and SetGoldPro v5.1r0 provides the following enhancement:

- [“Reading strip targets”, on page 4.](#)

SetGold and SetGoldPro v5.0r0 provide the following enhancements:

- [“Platform”, on page 5](#)
- [“Support for X-Rite/Gretag -i1 Pro 2”, on page 5](#)
- [“Sentinel LDK security”, on page 5](#)
- [“Saving setups for i1 iO, i1 iSis via i1 Profiler”, on page 5](#)
- [“Installing and starting SetGoldPro”, on page 5](#)
- [“Using SetGold/SetGoldPro with the Harlequin Host Renderer v4.0”, on page 5](#)

For the various change lists see:

- [“Change details”, on page 6.](#)

2 Notes about v5.3r0

Please note the following items related to v5.3r0:

2.1 Golden state target

The golden state target (`Golden.PS`) uses 100 patches and has four pages.

2.2 i1Pro2 device issue

When using the i1Pro 2 device and the reader measurement table, the proper alignment for the device is not obvious in that the assumption of aligning the bar to the edge of the patch row is not correct.

To ensure the alignment is correct for the i1 Pro 2 device the bar should align 2 mm inside of the target patches as shown below:

This issue will be fixed in a future release.

3 Notes about v5.2r0

Please note the following item related to v5.2r0:

3.1 Inkjet/Toner option

An Inkjet or Toner option is provided on the Printer menu for selection according to your printer type when creating a gray balance profile.

4 Notes about v5.1r0

Please note the following item related to v5.1r0:

4.1 Reading strip targets

The following text is added to the SetGoldPro dialog:

For strip targets, place the target on your reading table so that the "control" patch is read last (see documentation).

When reading the strip targets, ensure that the "control patch" is the last patch that is read. SetGoldPro will determine if the correct strip is read. If an incorrect strip is read SetGoldPro will display a warning, via the control patches, that something is wrong.

The Strip Targets are available in the **setgold\color_targets\StripTargetsEPS** folder. The last patch of each strip alternates between Orange, Yellow, Green, Cyan, Purple and Magenta. These "control" patches ensure that the targets are read in the correct order.

5 Notes about v5.0r0.

Please note the following items related to v5.0r0:

5.1 Platform

SetGold and SetGoldPro is a Windows 32-bit application and runs on both 32 and 64-bit Windows.

5.2 Support for X-Rite/Gretag -i1 Pro 2

Support for this device is added in v5.0r0. For a full list of the supported devices see Appendix C of the SetGold manual and Appendix D of the SetGoldPro manual.

5.3 Sentinel LDK security

Both SetGold and SetGoldPro can now be enabled using Sentinel LDK security. This security option is available as an alternative to using a dongle and password. When using Sentinel LDK security you will require a new product key.

5.4 Saving setups for i1 iO, i1 iSis via i1 Profiler

Setups can be saved for the i1 iO, i1 iSis via i1 Profiler. To make use of the most current measurement devices from X-Rite, including the X-Rite/Gretag - i1 iO and the X-Rite/Gretag - i1 iSis, the resultant measurement files must be saved in a specific format when using i1 Profiler as the application. This ensures that SetGold and SetGoldPro can use them.

Harlequin format profiles serve the same general purpose as ICC profiles, but are different in format and content. For more information see the document *Profiles and Calibration*.

5.5 Installing and starting SetGoldPro

SetGold and SetGoldPro is delivered as a ZIP file. To install SetGoldPro expand the ZIP file contents on your disk. To start the application go to the folder where you expanded the supplied ZIP file and double click **SetGold.exe**. Unless you want to run the application in demonstration mode, it is essential to use either; Sentinel LDK security with a product key, or enter your SetGold or SetGoldPro password when prompted and to have your Harlequin MultiRIP dongle attached.

Note: If you only have one RIP license make sure you start SetGold/SetGoldPro before starting the RIP. This is important if you intend to install profiles into the RIP.

5.6 Using SetGold/SetGoldPro with the Harlequin Host Renderer v4.0

From SetGold/SetGoldPro v5.0r0, Harlequin Host Renderer (HHR) v4.0r0 users can use PushCalibration in conjunction with gray balance profiles to calibrate the printer. A gray balance profile is also the best starting point for making an ICC output profile.

For more information see the SetGold/SetGoldPro manuals and Technical Note HQN081 – Push Calibration.

6 Change details

Below is a list of the changes made between SetGold/SetGoldPro v5.2r0 and SetGold/SetGoldPro v5.3r0. The table is uncategorized, in numerical order:

Reference	Description
373551	Import 100 patch calibration into SetGold.

Table 1 Changes made for SetGold/SetGoldPro v5.3r0

Below is a list of the changes made between SetGold/SetGoldPro v5.1r0 and SetGold/SetGoldPro v5.2r0. The table is uncategorized, in numerical order:

Reference	Description
371168	Add optimized Ink/Toner option for devices using toner.
372587	Implement a fix so that SetGold /SetGoldPro does not generate an error when generating the GREYBAL0.PS file.

Table 2 Changes made for SetGold/SetGoldPro v5.2r0

Below is a list of the changes made between SetGold/SetGoldPro v5.0r0 and SetGold/SetGoldPro v5.1r0. The table is uncategorized, in numerical order:

Reference	Description
369361	Make a change so that strips are not read in the wrong order.
370397	An issue has been fixed whereby in some cases in which IT8 target data was imported over multiple iterations, with only data for very dark patches present in the first iteration, incorrect XYZ data could end up in the final profile.

Table 3 Changes made for SetGold/SetGoldPro v5.1r0

Below is a list of the changes made between SetGold/SetGoldPro v4.0 and SetGold/SetGoldPro v5.0. The table is uncategorized, in numerical order:

Reference	Description
367370	Implement a change to prevent a SetGold Profile failure for perceptual and relative colorimetric renderings on toner based devices. That is, add the ability to generate CRD's for perceptual and relative colorimetric rendering where the measurement data contains patches that are measuring whiter than the white.
367509	Add the ability for SetGoldPro to make valid profiles using IT8.7/4 target data created from the X-Rite iSis measurement device and saved in IT8 format.
367518	Install grey balance tables from SetGold into HHR.
367623	Add the ability for SetGold/SetGoldPro to be protected using the Sentinel LDK.
367895	Add support for the i1 Pro 2 measurement device.

Table 4 Changes made for SetGold/SetGoldPro v5.0r0

This product includes cryptographic software written by Eric Young (eay@cryptsoft.com). This product includes software written by Tim Hudson (tjh@cryptsoft.com).

Copyright © 1995-1998 Eric Young (eay@cryptsoft.com)

All rights reserved.

This package is an SSL implementation written by Eric Young (eay@cryptsoft.com). The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are adhered to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson (tjh@cryptsoft.com).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed. If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used. This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software must display the following acknowledgement: "This product includes cryptographic software written by Eric Young (eay@cryptsoft.com)". The word 'cryptographic' can be left out if the routines from the library being used are not cryptographic related:-).
4. If you include any Windows specific code (or a derivative thereof) from the apps directory (application code) you must include an acknowledgement: "This product includes software written by Tim Hudson (tjh@cryptsoft.com)".

THIS SOFTWARE IS PROVIDED BY ERIC YOUNG "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE AUTHOR OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

The licence and distribution terms for any publicly available version or derivative of this code cannot be changed. i.e. this code cannot simply be copied and put under another distribution licence [including the GNU Public Licence].

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct

or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

“You” (or “Your”) shall mean an individual or Legal Entity exercising permissions granted by this License.

“Source” form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

“Object” form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

“Work” shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

“Derivative Works” shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

“Contribution” shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, “submitted” means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as “Not a Contribution.”

“Contributor” shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and
- (b) You must cause any modified files to carry prominent notices stating that You changed the files; and
- (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- (d) If the Work includes a “NOTICE” text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Deriva-

tive Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

US Government Use

Harlequin RIP software is a computer software program developed at private expense. If the Harlequin Host Renderer software is acquired under the terms of a proposal or agreement with the United States Government or any contractor therefor, the software is subject to the following restricted rights notice: "This Software is commercial computer software provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the U.S. Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013, FAR 52.227-17 Alternate III (g)(3), or subparagraphs (c)(1) and (2) of the Commercial Computer Software -- Restricted Rights at 48 CFR 52.227-19, as applicable, and their successor provisions. Contractor/Manufacturer is Global Graphics Software Incorporated, Waltham, MA 02451."
